

The Saituni Fund

Fighting Poverty and Corruption through Education.

Now you can make a difference.

The Saituni Fund is a project set up to build and maintain a school in Kadongo - Kenya - East Africa. Free from governments and officialdom the school is being built and run from direct donation. Materials and supplies are then purchased locally at local rates, making your donations go further.

You can donate by downloading a form from the Fund website.

www.saituni.org

If you wish to help spread the word about this exciting opportunity to make a huge and lasting difference to the children of Africa. You can download this leaflet from the website above, print off some copies and spread them around to friends and colleagues. The fund needs all the money it receives to be spent on the school, not on fund raising efforts.

With your help we can break the cycle, fuelled by some other charities of apathy, begging and corruption. The children of Africa need aid, but given in a constructive and empowering way, it is the only way lasting change can happen.

You can do something spectacular today.
